# SpaBerry™ VR/AR

Ever been in a hot tub fully dressed? How about sitting in a hot tub right in your very own living room? Well now you can with the world's first and only hot tub VR Experience by SpaBerry!

SpaBerry's are already the coolest looking hot tubs on the planet! New design architecture, new designer colours, all new interiors, and product innovations with stunningly beautiful design language. SpaBerry's are an amazing finishing touch to any deck, patio, or balcony. Now you can full immersive yourself in a SpaBerry right at home with the all new SpaBerry VR Experience!

Featuring our all new SB-6 top of the line model, our VR Experience allows you to change the color of your SpaBerry, adjust the jet action, and even enables you to change your surroundings to enjoy the views!

It gets even better; download our Augmented reality app to place a SpaBerry directly into your own space! From there the only thing better than our VR and AR Experience is the real thing - contact us for special offers so we can get you a SpaBerry of your very own! Are you wet yet?

# SpaBerry™ Reviews

Be sure to take a peak at #spaberry on Instagram to see hundreds of unsolicited customer pictures, comments, and SpaBerry love!

Here are some pics we decided to put it right inside our muskoka room, this way we never have to worry about bugs. We could never do this with a full size tub. It fits perfect....Marissa #spaberry #muskokaroom

Makes every night better #hottub #spaberry #oasis  
Such a great investment man. We love ours 👍

Spaberry. From Canada. We absolutely love it ❤️

we absolutely love our spa berry. Very cost effective to run, chemicals are easy to use and very low maintenance. We went this the top of the line

Spaberry is a perfect choice for people with limited space , looking for the benefits of a full size, but without the extra people. #spaberry

Our new #SpaBerry that we LOVE. Moss treated, lightweight, comfortable, powerful jets, good massager and just basically amazing.

We love it! It's perfect for our small space and it's very easy to maintain. It's about \$15 per month extra for electricity.

The recovery game is about to be on point. #spaberry #hottub #bottlesandmodels #bottlesofwatermostlikely #bubbles

Having a destress bubble in my spaberry!  
#spaberry #spa #hottub #stress

The new addition to my backyard escape! We never thought we would find a hot tub that fits in our small space!

Direct from Spaberry. It's nice because it's just a 2 person and won't need as much money to heat and maintain

Chilly day today and this id the perfect place to be after a case of The Mondays. #spaberry

**Anytime, Anywhere,  
Any Weather**

**Your SpaBerry is truly an Anytime, Anywhere spa. At only 300 pounds dry your SpaBerry is very easy to move around as you see fit! Via a regular 110 volt connection plug with the retractable 9 foot power cord including a built in certified GFCI breaker; your SpaBerry simply plugs into a 15 AMP dedicated outlet.**

**Sell your home; take it with you! Have multiple decks at home; move it around for unique perspectives! Don't like doing the mad winter dash outside into your SpaBerry; move it indoors or into your garage for the winter! Have a vacation property; why not take it out for the weekend! Are you a snow bird that heads south for the winter; don't leave your SpaBerry behind, take it down south with you! Want to be the envy of the campground; why not bring your SpaBerry camping! The possibilities are endless!**

**Your SpaBerry was built to get around! With our unibody design and BerryTuff Sealed bottom your SpaBerry was built to be rugged! Rest assured that this is not going to change over time either; our 360 degree insulation features 100% full insulation spray foam that is not able to absorb moisture; this means that in 10, 15, even 20 years your SpaBerry is still going to weigh it's original dry weight of 300 pounds!**

**SpaBerry is the truly Portable, Practical, and Affordable spa, built for every climate, built for any deck, patio or ensuite... and built to last!**

# BerryPure

The Busy Person's Spa

**BerryPure is an all natural species of Sphagnum moss that has been conditioning water for centuries. Assisting in inhibiting the growth of bacteria, fungus, yeast molds and algae that can grow in your spa water, BerryPure limits the amount of chemical sanitizer that needs to be added to your spa water. Less chemical additives means less skin, eye and throat irritation, less chemical smell in the water, on your skin and within the environment around your SpaBerry!**

**BerryPure absorbs minerals out of your water naturally softening your spa water. There are many of our customers who are using well water with minerals like manganese, copper and iron. These minerals can leave your skin very dry after leaving your spa, forcing you to put lotion on your skin. BerryPure is nature's water softener eliminating the use of other chemical additives required to soften your water.**

**The average person uses their SpaBerry 3-4 times per week for 20-30 minutes. By having BerryPure conditioning their water 24/7, they find that they are only adding 1-2 teaspoons of sanitizer per week. (Make sure that you test your spa water weekly, maintain your PH and sanitizer levels)**

**The most important thing in any spa is that when you lift your spa cover your water looks good, smells good and is the temperature that you want it to be at! BerryPure is the all natural way to condition your water and ensure it is Clean, Clear, and Crisp.**

**The BerryPure pouch is easy to install in the grey canister top that sits above your BerryFilter. Simply open the grey canister lid drop in your BerryPure pouch, close the grey canister lid and slide the canister over the BerryFilter in your SpaBerry. The BerryPure pouch needs to be changed out every 30 days. The used BerryPure is biodegradable and can be opened up and spread in your garden or lawn, no special disposal required!**

**All Natural, Biodegradable, easy to use, minimal chemical sanitizers and softer, cleaner crisper water!**

**BerryPure can be purchased on line and sent to your home at [www.thespaberry.com](http://www.thespaberry.com)**

# Berry Filter

Naturally Clean, Clear, Crisp Water

**BerryFilters clean your water by catching any debris, dust, and particles that may have come from our bodies, bathing suits, or hair. The paper filters also help to remove body lotions or oils that get into your SpaBerry water after each use. We use a full size 35 square foot filter; the same size that you will find in some full sized hot tubs. We do this because we want your SpaBerry water to be as clean, clear, and crisp as possible.**

**Simply rinse out your BerryFilter at least once a month if you're using your SpaBerry every other day. Increased usage results in your BerryFilter needing to be cleaned more frequently. Rinse it out with a high pressure hose to remove all debris between the paper pleats. Use our "Filter Free" cleaning solution to remove the oils and lotions trapped within the paper filter. Always be sure to allow your filter to dry completely before returning it to your SpaBerry, as this will help to destroy any residing microorganisms. For this reason it's always best to have at least 2 BerryFilters on hand so your SpaBerry is always ready to use with a fresh, clean, dry filter.**

**Be sure to replace your BerryFilter after 12 months of use. After this amount of time the paper filter breaks down and can allow debris to pass through the small holes that develop in the paper pleats. Those particles can then make their way down into your pump which can affect the overall performance of your SpaBerry.**

**BerryPure inhibits bacterial growth, while the BerryFilter cleans your water. Together these products ensure that your SpaBerry experience is a very pleasant one, with clean, clear, and naturally crisp water that other manufactures envy.**

**BerryFilters can be purchased on line and sent to your home at [www.thespaberry.com](http://www.thespaberry.com)**

# BerrySage

Life's better in a SpaBerry

**BerrySage nodules can be found in varying body contact points within the interior seating surfaces of your SpaBerry. This unique and exclusive feature stimulates a shiatsu massage while you're using your SpaBerry.**

**The BerrySage nodules and Shiatsu massage action helps reduce tension, fatigue, muscle spasms and can promote proper blood and lymph circulation. BerrySage also helps improve the supplement of oxygen to the muscles and helps to make you feel rejuvenated and increase energy levels.**

**The only thing better than using a SpaBerry, is getting a massage while using your SpaBerry! Imagine 5000+ fingertips at your back, legs, feet, arms, and hands. Melt your muscle pain away, and sooth your body back to it's healthy utmost form!**

**Be sure to take note of the different BerrySage areas in each one of our SpaBerry models ranging from 1,500 nodules all the way up to over 12,000 nodules!**

# BerryJetz

Are you wet yet?

**Your SpaBerry features our amazing BerryJetz! Ranging from 6 to 16 BerryJetz between our different models. All BerryJetz offer 2 speeds of low and high; these selections can easily be adjusted on the top control panel via the "Jets" button. The BerryJetz are all about options; each one is individually adjustable simply by giving it a twist; customizable based on what might be a little extra sore that day! We offer 4 different BerryJetz with each providing it's own unique massage action; BerryJetz of the same size are easily interchangeable; just pop it out and move it around as you see fit and customize your daily massage!**

**While relaxing in your SpaBerry maybe one person likes the jets, and the other just wants to soak in the hot water; SpaBerry ensures that everyone is happy! Perhaps you're in your SpaBerry by yourself; turn the unused side off and receive stronger water pressure out of the side that you are using! Maybe your lower back has had an especially rough week; turn off all of the BerryJetz in your SpaBerry with the exception of your lower back for a powerful deep tissue massage!**

**BerryJetz relive your daily stress, massage your aching muscles and get rid of your body's tension!**

# 7" WaterFall

The Ultimate Personal Luxury Spa

**Every SpaBerry features a 7" wide WaterFall. This WaterFall is fully adjustable via the top side dial that is within easy reach of either SpaBerry seat.**

**You can adjust this WaterFall to your exact desired setting, or even turn it completely off if you're craving some peace & quiet.**

**SpaBerry is sure to set the mood, so you're able to melt away the soreness from those aching and tired muscles.**

# Cup & Wine Holders

Life's better in a SpaBerry

**No one wants to be nominated to get out of the hot tub and grab the next round of drinks! No need to worry here; SpaBerry has you covered! Each one of our models include 2 cup holders, and we also provide you with a wine bottle holder in our 2 person models!**

**No need to get out of your nice cozy warm SpaBerry and do the mad dash back inside to grab the next round; your backup is right there within easy reach ! Remember to stay hydrated while using your SpaBerry!**

# BerrySeal Cover

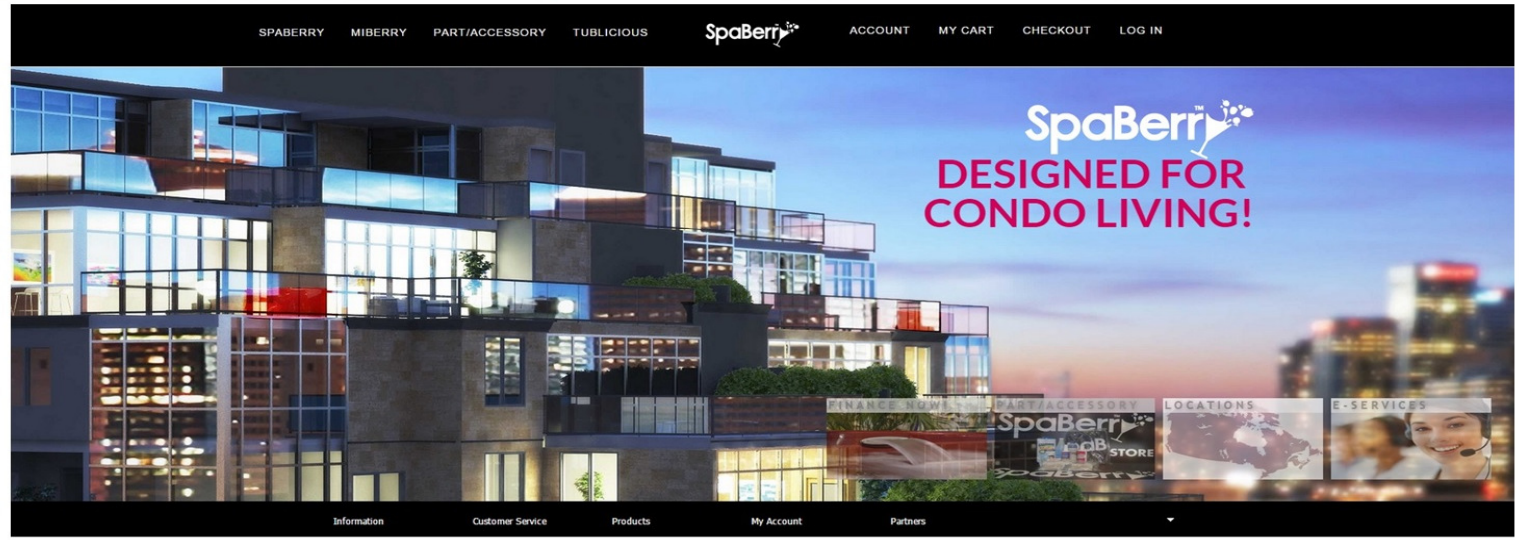

When Size Matters

**Our ASTM Safety Approved BerrySeal cover simplifies the hot tub cover in so many ways!**

**With its one piece design the SpaBerry BerrySeal cover is able to offer you better heat and water retention. While the cover is closed you have virtually 0% humidity loss from your SpaBerry. This all ensures a better performing product with lower energy cost! The unibody design also allows you to avoid the expensive hydraulic lift kits; the BerrySeal cover is light enough for anyone to lift it on their own!**

**Once your SpaBerry arrives home, simply place the BerrySeal cover in place, pull the 6 straps down into place, mark the clips, drill the provided screws into place, and your BerrySeal cover is installed! 2 clips on either side, and 1 at each end ensure that your SpaBerry is completely sealed during those cold winter months!**

**Your BerrySeal cover is finished off in our OstrichSkin Exterior featuring small dimples to simulate real ostrich skin leather. An exotic stylish finishing touch to your SpaBerry... that elegant look... that sexy design that discerning customers are looking for.**

# BerrySmart

SpaBerry - The Hot Tub Evolution

**Being smart is what SpaBerry is all about.**

**Your new SpaBerry comes with it's own BerrySmart QR Code conveniently located on the topside control of your Spa. Using your smart phone or tablet simply scan the BerrySmart QR code and your automatically taken to our website [www.thespaberry.com](http://www.thespaberry.com) to order more supplies, maintenance products, or even check out our FAQ videos, our Blog, and check up on current special offers.**

# 360 Degree Insulation

Anytime, Anywhere, Any Weather

**360 Degree insulation means just that; your SpaBerry is fully insulated on all sides and even on the bottom, with a top grade spray foam insulation. This ensures that all SpaBerrys are built for the harshest of climates, tested all the way down to -72 degrees Celsius.**

**Insulation is such a critical performance piece of every SpaBerry when it comes to energy efficiency. Throughout a full calendar year you're looking at \$18 per month on average of electricity consumption. This is based on using your SpaBerry every other day for 20 to 30 minutes, and keeping your SpaBerry cover on when not in use! More specifically you'll experience \$13 to \$15 in summer months, and \$24 to \$26 during the winter.**

**Your SpaBerry is not going to break the bank upfront or over time. It's built to perform very well and be extremely energy efficient in any type of climate. SpaBerry in the Anywhere, Anytime and Any Weather Spa!**

# BerryTuff

The Ultimate Personal Luxury Spa

Once we have insulated the undercarriage of your SpaBerry, we completely sealed the bottom with our BerryTuff black hard plastic undercarriage.

This ensures that the bottom of your SpaBerry is protected for years and years to come! The BerryTuff sealed bottom is designed to prevent environmental intrusion.

The BerryTuff bottom ensures that no little critters are able to bury themselves up into your SpaBerry's interior. This smooth finish also makes your SpaBerry easy to slide while empty on most surfaces such as wooden, vinyl, or composite decks. The interior casing including your insulation, pump, heater, and control panel are also protected against dust and debris from the great outdoors.

With the BerryTuff sealed bottom you're able to place your SpaBerry Anywhere that your heart desires! Grass, gravel, even directly on soil!

Rest easy, relax, and soak the body pain away; all while knowing that your SpaBerry is fully protected and built to last!

# BerryGlide

SpaBerry - Making Things Easy

**BerryGlide is the only completely retractable equipment compartment allowing for quick and easy equipment servicing! Your SpaBerry pump and master control panel have conveniently been placed on the retractable BerryGlide. SpaBerry components easily glide right out of the front access hatch of your SpaBerry for easy removal and installation should the need present itself.**

**BerryGlide is designed so that you need only push down on two isolation valves which isolate the water in the plumbing and the spa from the equipment itself. Undo two unions and then simply pull the entire SpaBerry equipment pack out in front of the SpaBerry for quick and easy part substitutions.**

**BerryGlide is the only retractable Spa equipment compartment in the world! A SpaBerry original and exclusive feature!**

# SpaBerry EPC

The Busy Person's Spa

Available directly from the SpaBerry manufacture we offer our "EPC", or Extended Parts Coverage. This gives you an ADDITIONAL 2-5 years worth of parts coverage, that commences at the end of your standard 1 year Parts Coverage that is included with each and every SpaBerry. This EPC covers all of your SpaBerry parts including but not limited to your pump, heater, sensors, mother board, and your top side control panel.

Every single part included within your SpaBerry has been designed to be very simple for the end user to swap out on their own. This is simplified even further with our own patented BerryGlide System that allows anyone to gain full access to the pump.

What does this mean for our customers? It means no more waiting for a tech to come out and diagnose your problem, no more trip charges for our many rural customers, no more multiple technician trips for the same problem; we've made things simple!

If you do have a problem with your SpaBerry, simply fill out our E-Service Request form on our website, <https://www.thespaberry.com/sb-contact/?type=service> , and one of our technicians from our manufacturing facility will contact you on the phone, trouble shoot with you and diagnose the problem, and if it is deemed that you require a replacement part that piece will be expressed out to you, and the tech will email you detailed instructions on how to swap out that part including pictures.

This offers you complete peace of mind knowing that any and all parts of your SpaBerry are completely covered for up to a full 3 years.

# BerrySkin

The Coolest Looking Hot Tubs on the Planet

**Exclusive to our SB-4 SpaBerry; our full BerrySkin exteriors!**

**The full exterior basin of your SpaBerry has the Ostrich skin dimples. A beautiful finishing touch! This way with the BerrySeal Ostrich Skin Cover closed, the finish is the same from top to bottom and matches the cover fully. We also find that the Ostrich Skin exterior gives your SpaBerry more of a matte type look or finish; a fantastic alternative for a slightly more subtle effect. SpaBerry - artwork in it's greatest form!**

# BerryBlanket

Anytime, Anywhere, Any Weather

**Spaberry's are the coolest looking hot tubs on the planet! New design architecture, new designer BerryMarble colours, all new interiors, and product innovations with stunningly beautiful design language. SpaBerrys are an amazing finishing touch to any deck, patio, or balcony.**

**Be sure to fully protect your SpaBerry with the new BerryBlanket! Once your BerrySeal cover is closed and firmly locked into place, the BerryBlanket goes right over your entire SpaBerry covering it from the top right down to the bottom. This way both your vinyl BerrySeal Cover and the Acrylic exterior of your SpaBerry are fully protected against all of mother natures elements! Harmful UV rays, dust, dirt; none of it is a match against the BerryBlanket! Protects against lifetime fade of your beautiful acrylic SpaBerry shell, and it will even prolong the life of your BerrySeal cover!**

**The BerryBlanket also includes zip straps at either end to ensure a nice tight snug fit, so no strong wind gusts are able to blow the BerryBlanket off of your SpaBerry.**

**A fantastic finishing touch that ensures your SpaBerry will be just as gorgeous decades down the road as it was one day one!**

# SkullBerry

Life's better in a SpaBerry

**We broke the mold one this one! Our SpaBerry SB-5 features a different interior experience for the members of our SpaBerry family. Fashioned after the rear window lines of the iconic 60s Corvette are the SkullBerry Headrests.**

**While seated in your SpaBerry this offers you a little more neck support with a raised headrest behind each seat. This extra height offers you something to lean the back of your head against.**

**SpaBerry offers the ultimate luxury, comfort, and style that discerning customers are looking for.**

# BerryStep Inserts

Are You Wet Yet?

**Making things easy is what SpaBerry is all about! On our all new SB-6 model, and featured on the SB-5 we have incorporated two steps built right into the front of your SpaBerry!**

**This makes getting into your SpaBerry a little easier as you're able to get some extra height to step up and into your spa. The flush mounted BerryStep Inserts feature our BerrySage nodules on the bottom to offer you that little bit of extra grip underneath your feet.**

**SpaBerry's are the coolest looking tubs on the planet, and our BerryStep Inserts take this to the next level! Both of the steps have built in LED mood lights that change in coordination with the interior LED lights of your SpaBerry. At night in the dark, this is an amazing finishing touch to any backyard! SpaBerry takes no responsibility when it comes to neighbour jealousy!**
